	Religion	Issues	Immediate problem	Ideology and politics	Friends, lovers, enemies	Family	Weirdness/unknown
Leonidas Halfsnake, Salesman, Artiste 16	The Future, secular	Honest, polite Values friendship Needs money	Helping beggar friend	Specific imperial policy, rival agrees	Beggar, ambitious woman, outlaw rival for her	x	The future self, the song, the unmet teacher
Tecmessa Amazon Tribes, Councillor, Bug Wizard 7	Tribal paganism, savagery	Curious, nervous Values heritage Needs money	Warrant, pregnant wife	Harassing empire, mostly via friend	Bug wife and community, outlaw buddy	Mental sister, Deceased cousin	Bug magic
Ucmec Free Tribes, Caravaneer, Bug Wizard 7	Favors the "old ways," fertility and the wild	Morose, rash Values respect In danger	Identity mix-up, taking relic somewhere	Traditional anti-empire minority	x	Deceased cousin	Bug magic The entity (teacher) The relic

Politics: Leonidas' **innovative policy position** and Diorix's more radical version, directly related to the tribal scandal and Nialin's death
 The crystal spear: tribal relic, owned by Nialan, killed vs. imperials, disgraced; inheritance went to both cousins, Tecmessa and Ucmec, spear went to latter, who has to bring it **somewhere for reason related to policy position**; the pro-imperial Free Tribes faction wants to destroy it; valued and aided by Leonidas' future self
 Leonidas' future self: advised him to promote his art politically, effectively a teacher, now instigates the song to influence him again; teaches Ucmec too in surrealistic ways, **must be about the crystal spear**
 Diorix the outlaw: operates out of Bugfolk territory; dangerous enough to be feared; friends with Tecmessa, just did a dangerous caper with her; romantic rival with Leonidas for woman to the point of enmity, although agrees with him about political problem
 Bug magic weirdness too: **specific content** shared by Tecmessa and Ucmec (too much overlap for coincidental Types) → **relevant too!**
 Everyone has to accept that *some* of their backstory and goals aren't going to be initially involved, and that the weirdness is the GM's first priority – fading back Leonidas' beggar artist friend and his ambitious halfsnake hottie romantic interest; Tecmessa's pregnant Bug wife Catilia and deranged missing sister Eribo

 extra weirds
 - machine X
 - pregnancy ?

	Imperial home city, looking for money to help beggar friend		Island, good source of dubious cash, with outlaw friend and the take from their escapade		Island, seeking best route to destination, avoiding notice vs. pursuers

not connected (OMG) to other weirdness
 - good strong religion, that's all
 e.g. Leonidas' strange pregnancy
 - = fertility aspect
 = F weirdness of
