Froggies! session 3

Teeru - w/Urrep, going for the direct route
small contingent of loyal Holy Guard
prevented the informant's escape, so no
organized defense

Goshu & villagers will be pretty scared, possibly
desperate enough to stop them

Booshi - w/Bera, who is not "the key," but possibly a
point of focus for the uncertain lower-rank
priests; a lot of them are also well fed rather
than ext. Main priest needs a name though;
his Baribo.

Washi - wandering into Spis's man; more or less, use
map w/pillars. NB the gem!

*Imber: very unhappy w/ his village, probably in trouble, obviously
contrasting Booshi; little bosh for sure

Eppu: wh-oh. They've got him packaged for delivery by road.
Stha & Zuth? anything?
