Mercantylor issues

- Sir Petryn cracks down on usury (upsetting the guy who just cashed Dafydd's notes), adjusts hawking tax

Brion might be more important
as well, given mentorship for Arthur
and Luther to Fergal

large church influence? 7 monthly checkin
can't be popular - no matter how legal
& family topic for Fergal → "other people first"

Agri: low level on Day 8 ← ub syncretic - politically
→ missing piece (or red-lead?) might → pressure on Morgath
want a middle ceremony to organize
for their faction → Petryn would support this

Factions & pressure?
Roving Doom [order of Pillar of Fire]
Copper Hawk [order of Funding Gate]
